

If you can't see the wood for the trees...

...let FALCON shed light on your Financial Consolidation.

Identifying key trends and exceptions from the mass of data collected can be a difficult task for any Group. Often too much time is spent in producing the results leaving insufficient time to understand the outcome.

A comprehensive, purpose built solution to your financial consolidation needs, FALCON can reduce the burden of producing the results. You have more time to shed light on the key issues. Using an intuitive Windows™ environment, FALCON is both easy to install and quick to learn.

FALCON provides you with:

- ◆ A single, open relational database creating one version of the truth.
- ◆ Multiple data structures that readily adapt to changes in your organisation.
- ◆ Unparalleled auditability with complete audit trails, including inter-company eliminations.
- ◆ Automated currency translations and automated journals that form part of the audit trail.
- ◆ Outstanding reporting including links to spread sheets and EIS solutions for further analysis.
